PROJECTS

LeetLab

- LeetLab is a Full Stack made using MERN Stack coding platform designed to help users practice coding problems, learn algorithms, and improve their programming skills. It features a user-friendly interface, problem-solving capabilities, and integration with coding challenge APIs.

StudyNotion

- StudyNotion is an EdTech platform built using the MERN stack (MongoDB, Express.js, React, and Node.js). It allows users to create, consume, and rate educational content. The platform is designed to provide a seamless and interactive learning experience for students and a space for instructors to share their expertise.

EXTRA-CURRICULAR ACTIVITIES

- Smart India Hackathon (SIH): 2024, Participant- Cleared the internal round, demonstrating strong problem-solving and teamwork skills.
