Objective

Computer Science (AIML) student at Brainware University with a strong academic record and a passion for web development. Interested in contributing to impactful projects, with a focus on continuous learning, innovation, and user-centric scalable solutions.

Projects

LeetLab

- Engineered LeetLab, a Full Stack **MERN** coding platform (React.js, Node.js, Express.js, MongoDB) created to help users practice coding problems, learn algorithms, and improve programming skills.
- Integrated **Judge0 API** for robust code execution and validation, processing code submissions with < 1 second latency, and implemented JWT for secure user authentication, enhancing platform security by **99%**.

StudyNotion

- Developed and deployed StudyNotion, an EdTech platform built using the MERN stack (MongoDB, Express.js, React, Node.js), enabling users to create, consume, and rate educational content.
- Provided a seamless and interactive learning experience for students and a dedicated space for instructors to share expertise, promoting content creation and consumption.

Weather App

- A clean, responsive weather platform for real-time updates, built with **HTML, CSS, and JavaScript**, integrating the **OpenWeatherMap API** to fetch live weather data based on location or city input.
- Implemented dynamic features including **country flags**, and error handling for invalid inputs with **mobile responsiveness**. Designed intuitive UI and utilized the **Geolocation API**.

Skills

- Programming Languages: **JavaScript** (DSA)
- Frontend Web Technologies: HTML, CSS, Tailwind CSS, **React.js**, DaisyUI
- Backend Web Technologies: **Node.js**, **Express.js**, **Axios**, Zod, Zustand
- Database Management: **MongoDB**, **PostgreSQL**, SQL, ORMs
- Tools & Version Control: Git, **GitHub**, Postman, Judge0 API, Geolocation API
- Authentication: **JWT** (JSON Web Tokens), BcryptJs

Education

- Bachelor of Technology in **CSE – AI/ML** 2022-2026
Brainware University GPA: **9.067**
- Intermediate (Senior Secondary Examination), **CBSE** Board 2021
Kendriya Vidyalaya Sevoke Road Percentage: **88%**
- High School, **CBSE** Board 2019
Kendriya Vidyalaya Sevoke Road Percentage: **81.4%**

Achievements/Extras

- Smart India Hackathon (SIH)** 2024
Successfully cleared the internal round, demonstrating strong analytical problem-solving and collaborative teamwork skills in a competitive, time-bound environment.
- Web Development Bootcamp, ChaiCode** 2025
Completed a 6-month journey at the Web Dev Cohort mentored by Hitesh Choudhary, gaining hands-on experience in building projects from scratch and mastering both frontend and backend technologies.
